CHEMICAL USE FOR CLEANING
AND DISINFECTION

&

MATERIAL SAFETY DATA SHEET

&

APPROVAL

Concept Scientific, Inc.
Houston, Texas U.S.A.

PRODUCT PROFILE: ROCIDE GRE-SOLV GERMICIDAL

DESCRIPTION:

A one step degreaser/cleaner and germicide. The formula is authorized by the USDA for food facilities and has a EPA registration #3 7666-6-62710.

The GRE-SOLV GERMICIDAL formula combines the proven cleaning and degreasing features of the well known GRE-SOLV with the equally well known features of the ROCIDE REGULAR active ingredients (dual quaternary ammonium). The synergistic action between these two chemical formulation provides a unique and very effective one-step system of cleaning and germicidal efficacy.

WHERE TO USE:

ROCIDE GRE-SOLV GERMICIDAL is recommended for use in food processing/meat/poultry establishments for one-step cleaning-degreasing and disinfecting hard surface areas.

APPLICATION:

Mix 1/2 liter ROCIDE GRE-SOLV GERMICIDAL with 8 liters of water. Apply to surface with a sponge or cloth, allow solution to work for 2-3 minutes, rinse thoroughly.

For use in mop buckets add 80ml ROCIDE GRE-SOLV GERMICIDAL to the pail with 6 liters of water. Apply to the floor and then rinse clean.

EFFICACY:

The formula is effective against pathogenic microorganisms such as:

- Staphylococcus Aureus
- Streptococcus hemolyticus
- Salmonella choleraesuis

GENERAL COMMENTS:

ROCIDE GRE-SOLV GERMICIDAL accomplishes the objective for effective sanitizing and disinfecting all in one application thereby reducing product and labor costs. The product is also practically odorless, easy to use by hand or with automatic pressure cleaning systems.

TANK CARE
TANKS CLEAN

تانك كير
لتنظيف الخزانات

Equipment used

We use modern safe and inspected equipment to clean water tanks our equipment include such things as submersible camera, pumps (petrol and electrical) high pressure cleaning etc.

Petrol pump

We use petrol pumps with five horsepower capacity to empty large water tanks. It can discharge up to 265 US gallons per minute. The petrol pumps are only use quantity of water that needs to be removed is significant.

Submersible Electric pumps

These are one to one and half (1-1.5) horsepower electric pumps that are non Polyethylene and GRP tanks. The discharge rate for this pump is 75 US gallon The electric cable is water tight with extensions made using a 3M water resist tape.

High pressure pumps

The interior surface of the water tanks are cleaned using high pressure pump high pressure pumps for tanks depending on their size. The pumps rinse the cleaning agent from surfaces. The pressure of the pumps range from 2.5 bar

High pressure Steam Cleaner

In some cases, depending on the condition of the tanks, a steam high pressure pump be used. We use a diesel/electric pump with a capacity of 8.5 bar. This equipment is not used in FRP or Polyethylene tanks because the heat coupled with the high pressure can craze the walls of the tank.

Report of Microbiological Analysis of ROGIDE GRE-SOLV
GERMICIDAL

The degreasing/cleaner and germicidal product (GRE-SOLV GERMICIDAL) is very effective against *Staphylococcus aureus*, *Streptococcus hemolyticus*, *Salmonella choleraesuis* and *E. coli*.
The formula is very effective and killed the above mentioned bacteria using the concentration provided 60 ml in 4 Liters of water and also in the concentration 80 ml in 6 liters of water.
Accordingly the product can be used as a degreasing/cleaner and germicidal disinfectant.

OFFICE OF PESTICIDES AND PLANT
REGISTRATION DIVISION
WASHINGTON, D.C. 20460

FORM 700-7
DATE OF ISSUANCE
2/2/2000

NOTICE OF REGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
GRE SOLV GERMICIDAL

NAME AND ADDRESS OF REGISTRANT

ACTA: R. J. LALIBERTE CSI

NOTE: Changes in labeling or formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of the information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this registration is retained herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The following paragraphs are applicable only when checked:

The registration for this product is being issued with the understanding that certain defects in the labeling which are noted below will be corrected as soon as possible. Objection has not raised to the use of the present labeling for a reasonable period of time while fully corrected labeling is being prepared. Three copies of the corrected labeling must be submitted.

Note that this submission was processed and accepted under the 1947 Federal Insecticide, Fungicide and Rodenticide Act. At such time as re-registration is required or amendments are proposed, the Registration, Re-registration and Classification Procedures, as published in the Federal Register on July 3, 1975, will be applied. Refer to Section 162.23 of that document. Refer also to P.R. Notice 75-1 and 75-2.

James H. Banks
Product Manager 33
Disinfectants Branch (WH-567)
