

## STAFF ELIGIBILITY POLICY

### Introduction

In today's rapidly changing labor market, school staff are composed of those who follow traditional pathways as well as those that may have entered the educational workforce later in their careers. In Abu Dhabi's global private schooling environment, there is equally a diversity of terminology used to describe staff qualifications and positions. The employment of high-quality staff therefore needs to be based on high standards and yet be flexible enough to accommodate this diversity, all while using a common language. This policy lays out the basic requirements for staff to hold core positions in Abu Dhabi private schools.

### Purpose

- Identify the minimum qualifications, experience, and other requirements for the employment of staff in core positions (teaching, leadership, teaching support, non-teaching).
- Standardize terminology concerning qualifications, experience, and different types of positions to accommodate diverse curricula.
- Outline multiple eligibility profiles for different core positions to recognize prior experience and alternative pathways.
